**Redefine the game with a rich, authentic Football experience tailored to the way you play. From Strength to Strength FIFA has always been about the thrill of victory and the agony of defeat, but no one knows suffering quite like a defender on the losing side. No matter how well you control the ball, no matter how well you predict a teammate's next move, you'll never shield yourself from the complete agony of watching a match. This time, we wanted your player to feel like he was right in the middle of the action. We want you to feel what it's like to be a goalie, and how the defender tries to block you. We want you to experience the pure adrenaline of the run-in, when your back's against the wall, and the crushing feeling of being beaten. We believe these experiences only come from being there on the pitch yourself. Get Real. Get Tactical. Get Inspired. EA SPORTS Player Intelligence. Your Footprint. The X Factor. For the first time ever, Player Intell, which we first introduced in FIFA 19, has learned from all your actions on the pitch. Whether it's about a quick pass or a dribble, FIFA 22 measures your performance with unprecedented accuracy. It will unlock the best possible final ball you can dream of, providing just the right amount of power and accuracy to your forward run to find**

**that glorious goal. Your FIFA player will tell you, through the blue dots that surround him, when to slow down, when to speed up, and when to sprint. That way, every touch you make will push your player in the right direction. And EA SPORTS Training has been tuned to make you a more complete footballer. It will tell you when to use a single-minded run, when to cycle the ball between both feet, and when you have enough control in a challenging situation. No matter where you are on the pitch, you'll be more aware of where the opponent is and the space in between players. Powered by Football and Enhanced Connectivity No more matchmaking this time, FIFA 22 is powered by Football. P1™ gives you control of more than 150 players on the pitch. EA SPORTS creation tools let you design the exact formation you desire. Create every formation in over 60 variations. Multiple captain options. And with the most extensive coaching workflow since the first FIFA game, coaches can spend more time on player positioning, and less on micromanaging.**
