kbTrainer is a speed typing tutor with a visual background and a wide variety of amusing game settings to chose from. The aim of kbTrainer is to make your fingers and hands move as fast as possible so you can type quickly and accurately. Here is what others have said about kbTrainer: "There is lots of fun to be had. Maybe even lots of learn. I don't know. What I do know is kbTrainer is a winner. If you're looking for a clever way to improve your typing skills, and also make yourself a little bit happier in the process, then this is your game. (July 20th, 2011)" "kbTrainer is really cool. I especially like the ability to train different parts of my hand separately, or as a package (you can't do that in goToTraining). There's also a rubber duck mode, where the goal is to press 'q' and 'a' simultaneously. The latter one is, like, not even an option, but well, it's fun to click on the pink duck." "kbTrainer is a very good test application. It's simple to play, offers a wide variety of settings, and has a good interface. However, it's a warning to everyone out there that in the end of the day, it's up to you to practise hard to become a really really fast typist." "I really like kbTrainer, it's an ideal application for everyone who wants to practice speed typing with lots of newness. I did my first speed typing training with it and now I feel a lot better at it than I ever did before."
