MaxType LITE Typing Tutor Crack [32|64bit] [March-2022]

Cracked MaxType LITE Typing Tutor With Keygen is a lightweight Windows application that helps you test and improve your typing skills by providing a wide range of texts to choose from, namely basic editing lessons, lyrics of popular singers, articles, as well as source code files in different programming languages. In order to start the test, you need to create an account which can be configured by specifying the name and keyboard layout. MaxType LITE Typing Tutor Download With Full Crack provides two different tests, namely a typing test mode which allows you to examine your typing skills with any of the built-in library files, and an extreme typing mode designed to help you compete against a virtual opponent, while offering you the possibility to pick the difficulty level. The application enable users to create their own plain text exercise files, print the results of the test, and select from various programming languages (e.g. Pearl, C++, Java, Pascal). During the test mode, MaxType LITE Typing Tutor displays a virtual keyboard on the screen, highlights the characters that are typed on the keyboard, and offers test details for both hands, such as accuracy percentage, frequent mistypes, average speed, time needed to complete the task, and number of correct and incorrect words. Plus, the information is graphically represented, and you are notified each time you have typed in an incorrect character. All things considered, MaxType LITE Typing Tutor comprises a handy set of features for helping you perform various typing tests, and is suitable for beginners and professionals alike.

MaxType is a typing test program which helps you improve your typing speed and accuracy. The application contains a database of typing test files which you can pick and use in MaxType LITE Typing Tutor, which make use of different typists. The database can be expanded by adding new entries manually. Features: Typeray Adds a virtual keyboard on the desktop Typeray allows you to test your typing speed and accuracy by presenting you with typing exercises and then analysing them with a simple and efficient interface. Key-Board Manager Allows you to configure keyboard layouts Key-Board Manager is a practical utility designed to add and delete individual keyboards. Test Your Skills Allows you to test your typing skills against various typists. Test Your Skills is a typing speed and accuracy test that allows you to compete against a number of different typists. Use it to improve the speed and accuracy of your

MaxType LITE Typing Tutor X64

TypeSpeedTest is an applet that lets you test your typing speed. The applet simulates a virtual keyboard on your screen. All you need to do is to tap the screen to type a letter on the keyboard. The applet then gives you a screen with statistics about your typing speed (your typing speed in words per minute). The program also calculates the average and maximum number of words typed in one minute and presents you with graphs showing the progress of your typing speed over time.
