Wondershare MePub is a software utility whose purpose is to aid individuals in creating EPUB files from other formats, while also being able to configure the layout. Hassle-free setup and clean interface The installation process does not last very long, as it does not offer to download any products that are not actually necessary for the program to work properly. Once you complete it, you come face to face with a minimal and modern GUI, as it only encompasses a few buttons and two panes to display the uploaded items. It becomes quite clear that it is accessible to both power and novice users. Import files as chapters in your EPUB This application enables you to create EPUB e-books from documents in formats such as DOC, DOCX, HTML, TXT, EPUB, CHM and PDF. It is important to understand that each item you upload is going to be a new chapter, and you can process different types of files in the same time. Upload a cover and customize the layout Book information such as title, author, date, language, publisher and short description can be inputted, while you can also change the text and background color, ignore images and hyperlinks, as well as customize the margins and spacing values, so as to make your text fit better. Aside from that, you should know it is also possible to insert a book cover, in formats such as JPG, PNG, BMP, GIF and TIFF, and you can choose the output directory for the EPUB document. Conclusion and performance The building process does not put a strain on the computer's performance, as it does not require large amounts of resources. You can run it alongside other programs without encountering issues, all tasks are performed quite swiftly, the interface is user-friendly and our tests did not reveal any errors or bugs. Taking all of this into consideration, we can safely say Wondershare MePub is a simple, yet useful piece of software when it comes to converting certain files to EPUB e-books. Today could be a monumental day for the future of the internet. Last year the FCC voted 3-2 to repeal FCC net neutrality rules that prevented internet service providers (ISPs) from picking winners and losers online. In Congress, lawmakers are trying to reverse this outcome and we may have a Senator who may make one last-ditch effort to block this. That Senator is Democrat Senator John Thune of South Dakota. b7e8fdf5c8
