Gameplay Angry birds games have become more and more exciting since the first episode of the game of recent years. We are all familiar with the basic gameplay of the game, do you want to turn a bird from the bottom of the screen to the top? All you need to do this is to select the bird, which can be done by touching the corresponding button on the screen and it takes off from the bottom of the screen. Once it flies to the top, you can see the target board and play the game. To make your bird fall back to the bottom of the screen, you need to tap the same button in reverse (Reverse). For example, if you want to go down from the top, then you need to tap the button in reverse and it will appear to be back to the bottom. As the game of Angry birds, you can directly use the bird as a tool to solve the problems; but now, it can also be used as an item. The button is an integral part of this game, as for the first time, it can be used in the game to build houses, for example, to build a house, you need to choose the button and then to stack and place a bird to construct a building. But the thing is that the bird itself is not only a tool, but also a weapon and it has the features of an automatic machine gun. If you are using it, you do not need to shoot, shoot, you can just select the bird as a weapon, which takes much less time. It is easy to use. Such things are crazy, the attack of the bird is a safe weapon and the suitable damage has been done. No wonder in the game of 15 seconds, you have encountered evil birds such as Partridges and even the chief of the incident of the Chief. But other than that, the boss of each level is a specific color, which is not a small setback.
